ABOUT AFAQ

AFAQ is a leading Grade-A main contractor with deep regional roots, originally founded by three ambitious board members who first achieved 28 years of success in GULF before expanding into the Egyptian market in 2014. Since then, AFAQ has built a solid reputation for excellence, precision, and reliability, leveraging its extensive experience to serve a diverse range of organizations and individuals. With two core divisions—land development and general contracting—we deliver high-quality construction solutions tailored to the specific needs of the Egyptian market. Over the years, we have successfully completed more than 65 projects across multiple sectors, including administrative, commercial, residential, educational, automotive, hospitality, industrial, healthcare, and water treatment. Our ability to manage fast-track projects, execute unique designs, and maintain top-tier engineering standards reflects the professionalism of our in-house technical office and our highly experienced execution teams, earning the continuous trust of our valued clients.

MISSION

Provide each project with a unique experience, expand strategically in the market, and provide our clients with excellent services.

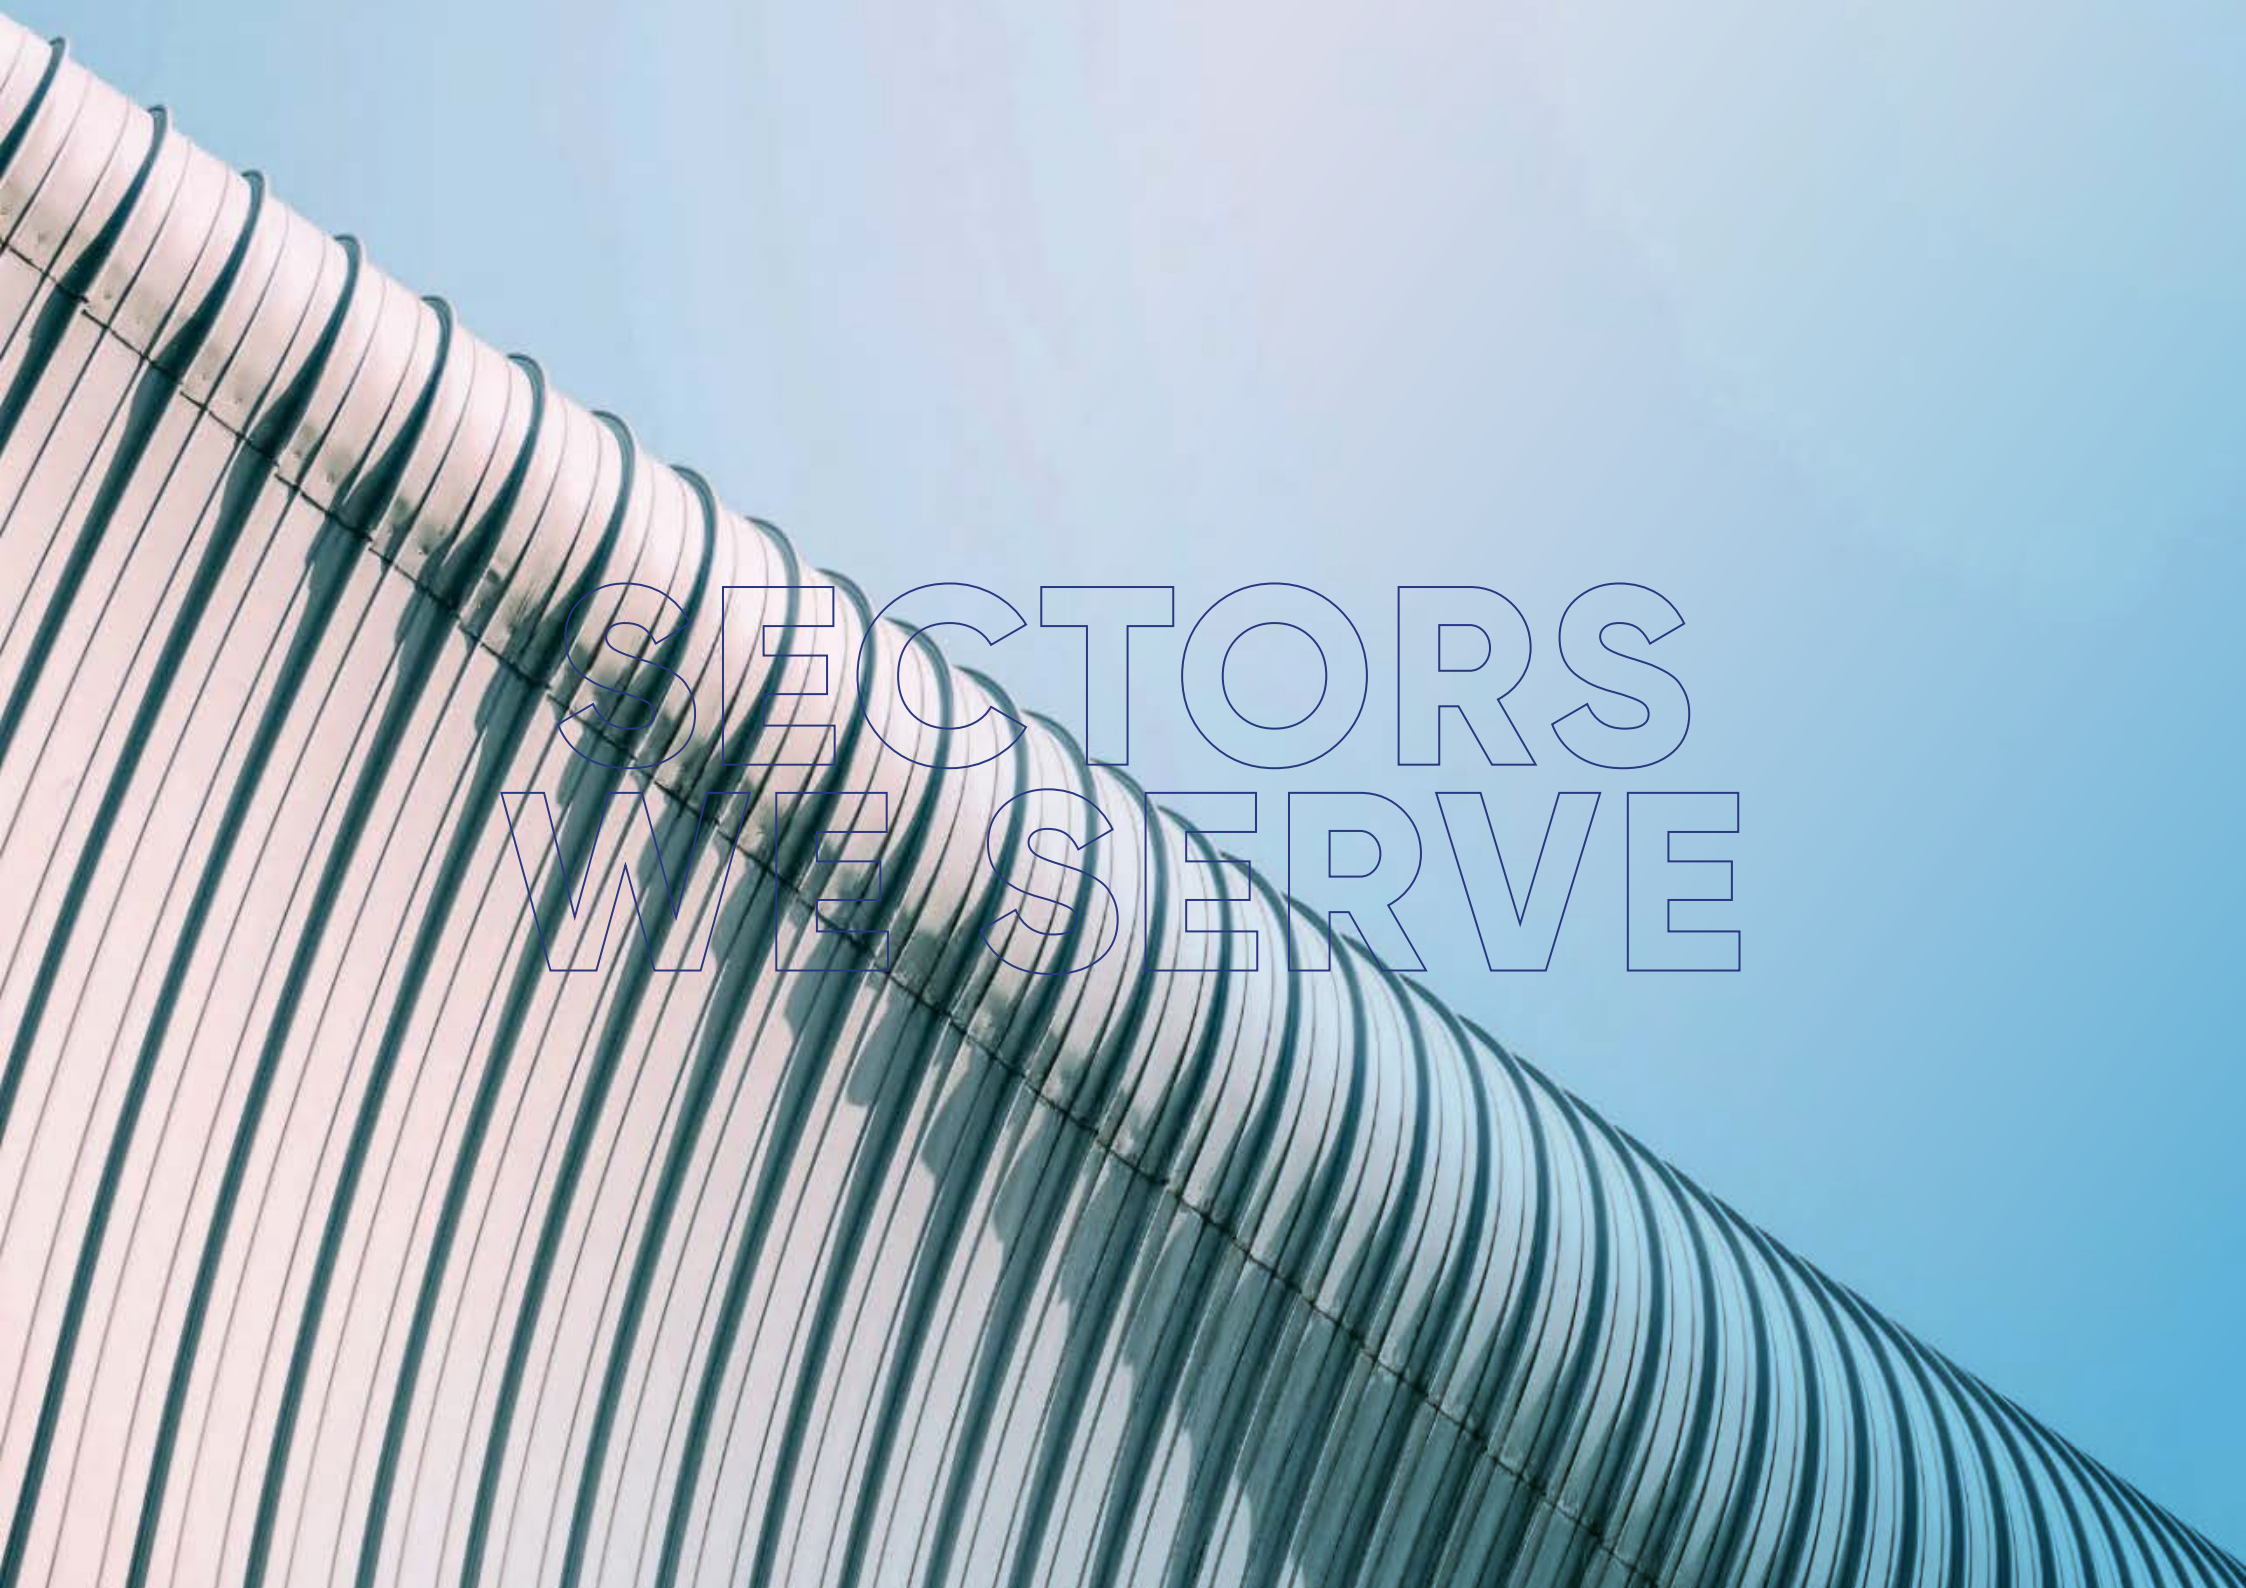

VISION

Provide each project with a unique experience, expand strategically in the market, and provide our clients with excellent services.

VALUE

Provide each project with a unique experience, expand strategically in the market, and provide our clients with excellent services.
